

Catholic Charities invites you to partner with us for the **Have a Heart Campaign** for the month of February.

I am Andrea Swenson, the Senior Director of Behavioral Health at Catholic Charities, and I oversee our clinics in Hartford, New Haven, Torrington and Waterbury. Our clients are often struggling with financial situations that only intensify their mental distress and basic essentials like toiletries are difficult to afford. The goal of the **Catholic Charities Have a Heart Campaign** is to provide our clients with packages of essentials.

We are asking organizations to support this campaign by donating toiletries that can be packaged by our staff or by making a monetary donation so our staff can purchase these items. A bulk donation of goods or an employee/member drive to collect essentials are ways you can help. We'd like to distribute these items beginning on Valentine's Day (Feb. 14).

To make a donation or receive more information, contact Susan Wright, Development Associate, at 860-728-2569 or swright@ccaoh.org.

We thank you in advance for your consideration and generosity.
